SIGNS FOR AROUND THE CANTINA

- Print and hang these fun cantina signs to set the scene for your cantina.

OUTHOUSE SIGN

- Print out and hang on restroom door.

HISTORY: Probably the most recognizable symbol associated with the traditional outhouse building is the familiar crescent moon carved into the privy door. Actually, the symbol is an ancient one, and was a sign for womanhood in colonial days and on the frontier. It's male counterpart, Sol, was either a star or a sunburst design also on the door. Since most male outhouses fell into disrepair rather quickly they seldom survived; the female outhouses were better maintained, and were eventually used by both sexes.

ROOM SIGNS

- More fun posters you can print out and have around your party space.
- You can edit the signs to give the different areas in your party space a themed name.
- To make the fonts match, you can download and install the free font "Rockwell Bold" on your device.

SOME SUGGESTIONS FOR THIS THEME ARE:

- **Tumbleweed Taproom** – *The main bar area where guests can grab drinks and hear the latest gossip.*
- **Sheriff's Corner** – *A lawman's desk, where clues might be stored or interrogations could take place.*
- **Gunslinger's Gambit** – *A gaming table area for poker, blackjack, or other card games.*
- **Stagecoach Stop** – *An entrance area where guests would come in, decorated like an old stagecoach boarding station.*
- **Dusty Trail** – *A hallway or pathway connecting different rooms, named after the long roads traveled by cowboys.*
- **Wanted Wall** – *A board or display area featuring "wanted" posters, possibly holding clues about the suspects.*
- **The Outlaw's Hideaway** – *A secluded area or back room where shady dealings or secret conversations take place.*
- **Gold Nugget Vault** – *A locked room or secure storage area.*
- **Whiskey Well** – *A small nook or bar where only the finest (and maybe most dangerous) drinks are served.*
- **Undertaker's Parlor** – *A more somber room, possibly a place where the victim's body is discovered.*
- **Lone Cactus Lounge** – *A quieter area for guests to relax, sit back, and observe the action.*
- **Black Hat Corral** – *A place where outlaws or those suspected of wrongdoing might be found plotting.*
- **Prairie Kitchen** – *A food-serving area, styled like an old chuckwagon stop. related to the murder are stored.*

MURDER AT THE DEADWOOD CANTINA

HOW TO MAKE YOUR JAIL:

- Using a utility knife, you will trim your pieces of styrofoam to the dimensions above.
- You will use the extra pieces of styrofoam to make the "Jail" sign on top and patches to help hold the styrofoam together.
- Trim out a piece for your "Jail" sign.
- Use a permanent marker to design the details, such as the mortar lines on the jail facade and the type on the sign.
  - For our bricks, we measured 6" high and 12" long.
- Next, take the wood burning tool and burn where you have drawn in your details.
- Paint the styrofoam with the grey latex paint.
  - You will want to use latex paint, as spray or oil-based paint will eat away at the styrofoam.
- With the black paint, paint in the details where you have burned.
  -You may want to water down the black paint to make it seep into the cracks.
- Hold the spray paint at a 90 degree angle to the surface and coat the surface VERY LIGHTLY with the paint, just enough for the piece to look aged and weathered.
- Once painted, use cement nails on the inside ridge of the styrofoam and glue the large pieces together.
- Also using cement nails, attach the "Jail" sign to the top.
- Cut your pvc pipe to around 40".
- Measure and mark where you are planning on putting your pipe into the back of the jail.
- Once marked, use your woodburning tool to burn holes or divets where the pvc pipe will sit.
- Spray paint your pvc pipe black.
- Using cement nails, adhere to the pipes the styrofoam.
- After constructing, you will need to find some way to make it stand. We created a small wall on the left hand side to support the wall. Guests then entered from the right.
- You may want to put something behind it where the window opening is. We hung a piece of gray fabric.

Feeding Your Cowboys and Cowgirls!

How and what you feed your guests is really up to you, but in order to make your job easier and more enjoyable, the next few pages contain some suggestions of foods and recipes that might go along with the western theme.

"On-The-Trail" Cheese Dip

What you will need:

- 1 box Velveta cheese
- Picante sauce
- 1 lb. ground beef

Directions:

- Cut the cheese into small chunks and place in a crock pot.
- Melt the cheese on low heat.
- Add picante sauce to the cheese to taste.
- Brown the ground beef and add to the cheese dip.
- Eat with tortilla chips.

Some other suggestions for snacks may include: trail mix and beef jerky.

Drink Suggestions

Whatever your drink of choice, may we suggest they be served up in old mason jars? Tie a piece of rope or twine around the rim and you have an authentic western themed cocktail. If you don't have mason jars, you should be able to find them at your local WalMart or simply use spaghetti sauce jars that have been emptied and cleaned out.

Cowboy Chili

While you may not be serving a meal, if you are, chili may be the perfect suggestion. Chili is a great suggestion for your party because not only does it go with your theme, it is easy to make ahead of time and simply have it brew in a slow cooker while your guests are arriving and going through the initial stages of your party. In order to please all the guests at the party, you can garnish your chili with a chili bar that includes: cheese, sour cream, chives, noodles, tortilla chips and whatever other toppings your guess may want to indulge in.

What you will need:

- 1 1/2 lbs of ground turkey or beef
- 2 (8 oz) cans of tomato paste
- 1 (46 oz) can tomato juice
- 1 green pepper
- 1 red pepper
- 4 roma tomatoes
- 2 banana peppers
- 1 white onion
- Handful of green onions
- 1 (16 oz) can black beans
- 1 (16 oz) can kidney beans
- 1 (16 oz) can chili beans
- Chili Powder
- Salt and pepper to your liking

Directions:

- First brown the meat in a frying pan and then add to a crock pot.
- Chop up all of the raw ingredients and add them to the crock pot.
- Open up all of the canned ingredients and add them to the crock pot.
- Mix all ingredients with a large spoon.
- Simmer for 4 hours on low.

Another suggestion for a side dish with chili would be biscuits or corn bread. You can find easy-to-make versions of these in the refrigerated section at your grocery store. Be sure to look for the cheesy cornbread recipe in the "Western Recipes from April" link on the Night of Mystery website.
